## PROFESSIONAL SUMMARY

Biomedical engineer with multidisciplinary experience in medical-equipment supervision and repair, preclinical neuroscience research, scientific computing, technical education, e-commerce operations, SEO, multimedia production, and digital product development. **Combines hands-on technical judgment with structured analysis, content production, and end-to-end project ownership.**

## CORE COMPETENCIES

### Biomedical & Research

Medical devices; preclinical research; neuromodulation; behavioral analysis

### Computational

Python; MATLAB; statistics; machine learning; signal and image processing

### Digital Operations

Website administration; SEO; e-commerce; content systems; customer relations

### Technical Communication

Scientific figures; presentations; courses; documentation; data extraction

### Creative Production

Video editing; motion graphics; social media content; branding

### Operations

Inspection; compliance checks; troubleshooting; sales consultation; team coordination

## PROFESSIONAL EXPERIENCE

### Medical Equipment Supervisor Engineer (Part-Time) | Peyramoon Teb Co.

Dec 2023-Mar 2026

Tehran, Iran

- Supervised medical and dental equipment across clinical settings; completed routine inspections, compliance checks, and technical assessments.
- Supported installation, maintenance coordination, troubleshooting, and communication with clinical centers.

### Founder and Website Administrator | Sirdent.ir

Apr 2020-Present

Tehran, Iran

- Built and operated an online medical and dental equipment store covering product management, website administration, SEO, content, and customer relations.
- Combined technical product knowledge with digital sales operations and evidence-based product communication.

### Technical and Educational Content Manager | Tech Academy ([academy-tech.ir](#))

Dec 2023-Present

Tehran, Iran

- Managed website setup, technical administration, educational content, course production, presentation systems, and SEO.
- Recorded a 40-hour MATLAB course consisting of 38 sessions.

### Medical Equipment Repair Technician | Vistatech-Pishro & Vista Co.

Mar 2023-May 2023

Tehran, Iran

- Completed a two-month internship and subsequent specialist work in sterilization and laboratory equipment maintenance.
- Worked with autoclaves, ultrasonic devices, sterilization systems, dental handpieces, and basic laboratory equipment.

### Freelance Multimedia Producer and Content Creator | Independent

Aug 2020-Feb 2023

Istanbul, Turkey / Remote

- Produced video edits, motion graphics, website content, social-media branding, and promotional assets.
- Managed social media for Nix Broker (Dec 2022-Feb 2023) and produced 15 promotional videos.
- Mentored a graphic-design team for the Amirkabir International Winter School of MBA (Feb-Mar 2023).

### Content Creator (Part-Time) | [Irandec.com](#)

Sep 2018-Feb 2020

Tehran, Iran

- Created product descriptions, digital content, and marketing materials for an online retail platform.

### Sales Representative and Medical Equipment Consultant | Ark Dental / Andisheh Bayesteh Tejarat Co.

2018-2020

Tehran, Iran

- Progressed from trainee to sales and field representative for dental equipment; supported customer consultation and product communication.

RESEARCH AND TECHNICAL PROJECTS

|                                                                                                                                                                                                                                                                                                                                                                                     |           |
